Catalog of Color paste for engineering plastics

1. Introduction

PTS Green PT004 is the color paste made by grinding mixed pigment, auxiliary, and etc. PTS Green PT004 has bright coloring, good dispersion, and high fluidity, and those characteristics are beneficial for color matching. It is suitable for engineer plastic such as PET, SAN, PC, and PMMA to injection molding.

2. Color sample by injection molding

RESIN : 100.00g
PTS GN PT004 : 0.08g
